

Marcus Autism Center Caregiver Workshop Series

Toilet Training

*Are you ready to stop changing diapers?
Are you wondering if your child is ready to
be toilet trained?*

About the workshop

This workshop was created caregivers of individuals diagnosed with autism spectrum disorder (ASD) and other developmental disabilities who have toileting concerns. In this 2-part workshop, the primary focus will be on urine training and will give caregivers several strategies to increase toileting success at home. The second session will be an opportunity to discuss successes and challenges and develop new action plans with a professional with years of toilet training experience.
