

Psychological evaluation

Marcus
AUTISM CENTER

NIH Autism Center
of Excellence

I am going to the Marcus Autism Center.

**NIH Autism Center
of Excellence**

**I ride in the car or take
the bus to get there.**

**I see a big fish tank. It is fun to
watch the fish. Wow!**

of Excellence**

**Next I meet Miss Lisa at the front desk.
She says “hi” and gives me a sticker!**

**I push the button with the “up” arrow.
Inside the elevator I push “2.”**

We ride the elevator to the second floor.

**If I don't like elevators,
I can take the stairs.**

**On the second floor, I stop at the desk.
I say “hello.”**

**Next I go to the waiting room.
I play in the play area. It is fun.**

Then a psychologist comes and calls my name. They smile and talk to me.

**A psychologist is a special kind of doctor.
They play games and talk with me like a
teacher or counselor.**

**I say “hi” and tell them my name.
I ask a question if I want.**

Next, I go to a room to play games.

**My mom or dad can stay
with me if I want.**

**I try many different games
and activities. I listen and follow
directions. I try my best.**

**I have fun. If I get tired,
I can take a break.**

I am done!

Now the grown-ups talk. I play quietly.

**The psychologist tells me
it is time to go home.**
